High-performer software engineer with 5+ years' expertise in web development. Proficient in the comprehensive JavaScript ecosystem, adeptly navigating both front-end and back-end technologies. Complemented with a solid background in the digital banking and fintech sectors. Dedicated to continual personal growth, fostering creativity, rapid learning, persistent problem-solving, and adept collaboration with people at all levels.

EXPERIENCE

KROM BANK — https://krom.id/   Jakarta, Indonesia
Full-stack Developer   *Feb 2023 – Present*

- Maintained and enhanced the Customer Approval Tool website, ensuring its seamless functionality and continuous improvement in supporting efficient customer onboarding processes.
- Refactor website codebase to enhance its performance, security, and user experience.

JENIUS — https://www.jenius.com/   Jakarta, Indonesia
Backend Developer   *Dec 2019 – Jan 2022*

- Maintained and developed product Flexi-Cash that experienced an exceptional 147% user growth over 3 years, enhancing its features and performance (Explore jenius flexi-cash: https://www.jenius.com/app/fund/flexi-cash).
- Engineered strategic collaborations with Eraphone, Sentraponsel, and Ikea, facilitating the seamless integration and widespread distribution of Flexi-Cash, optimizing its market reach and accessibility.
- Seamlessly migrated data of over 300 users to a new Forgerock realm on a partnership platform, ensuring a smooth transition and operational continuity.
- Optimized a slow-performing website and microservices, resulting in a remarkable 37% reduction in average execution time, enhancing user experience and efficiency.
- Played a role in supporting the development and successful launch of the credit-card product in 2022 (Explore jenius credit-card: https://www.jenius.com/app/credit/kartu-kredit).
- Consistently met and surpassed squad targets, achieving a minimum of 90% success on each scrum sprint, showcasing dedication and consistent performance.
- Maintained an above-average performance score (4 out of 5) on performance reviews for three consecutive years, demonstrating consistent excellence and exceeding expectations.

IVERSON TECHNOLOGY — https://www.iverson.co.id/   Jakarta, Indonesia
Technical Consultant   *Dec 2017 – Dec 2019*

- Executed tailored ERP customizations for leading corporations such as JNE, Gramedia, and more, optimizing their operational efficiency and productivity.
- Spearheaded the architecture, development, and seamless integration of a sophisticated distributed system. This ERP ecosystem interconnected data warehouses, enterprise portals, and POS printers, ensuring cohesive and efficient operations.
- Mentored and empowered teams from over two companies in dynamic Ax development and customization, fostering their proficiency and enabling them to leverage advanced ERP capabilities effectively.

SLC (BINUS UNIVERSITY) — https://www.instagram.com/slcbinusuniv/   Jakarta, Indonesia
Lab Assistant   *Feb 2011 – Jul 2013*

- Teaching coding skills to over thousands of students.
- Recognized as the Top Performing Assistant, showcasing exceptional performance and dedication in my role.
- Honored with the Best Research Interest Group award in Optical Character Recognition subject, highlighting a keen interest and proficiency in researching a specialized field.
- Earned the 3rd position in the XL Samsung Android Application Contest, demonstrating innovative prowess and technical expertise in app development.
